

AMENDMENTS TO THE SPECIFICATION

IN THE SPECIFICATION:

Please replace paragraph [0003] in its entirety with the following:

[0003]

For a hole transporting material, there are known aromatic diamine derivatives (e.g. see Patent Documents 1, 2 and 3), aromatic amine-containing polymers (e.g. Patent Documents 4 and 5) and the like. Specific examples include tetraphenylbiphenyldiamine (TPD), N-phenylcarbazole and 4,4'-[N-(1-naphthyl)-N-phenylamino]biphenyl (NPB).
